

Save Money

Automatically.

<https://garykfinance.com>

**What if saving
happened
itself?**

THE PROBLEM

Most people *never* save consistently.

Life **gets in the way.**
Every time.

Willpower is not a strategy.

Manual saving relies on discipline — and discipline runs out. The solution is a system that works without you.

⚡ SIMPLE STEPS

The Automatic Saving System

01

Set up a separate savings account

02

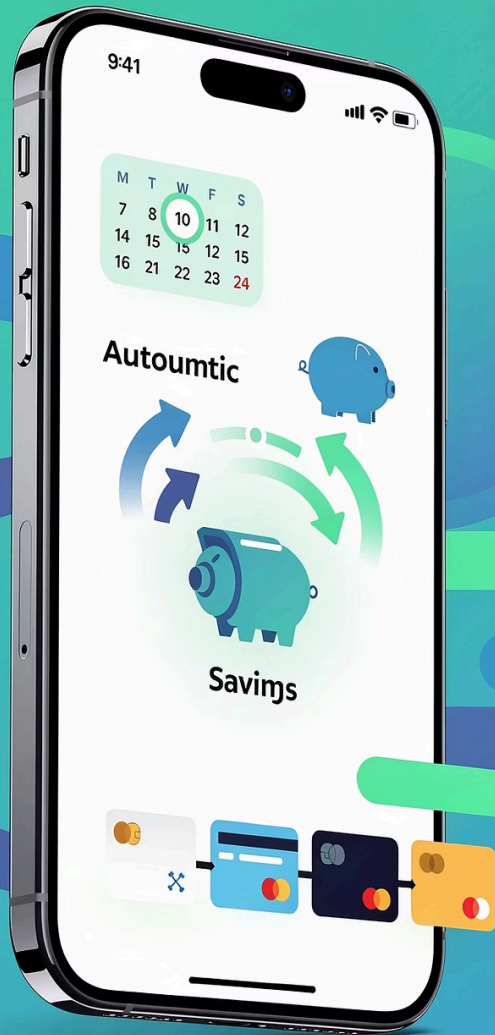

Automate transfers on payday

03

Start small — even \$10 counts

04

Increase by 1% every 3 months

Step 1: Open a **separate savings account.**

Step 2: **Automate** on payday. Always.

Schedule your transfer the same day your paycheck lands. You never see it — you never miss it.

Step 3: Start **small**. Stay consistent.

📄 Free guides + tools: <https://garykfinance.com>

Step 4: **Raise** it 1% every quarter.

A 1% increase barely touches your take-home pay — but it compounds into thousands over time.

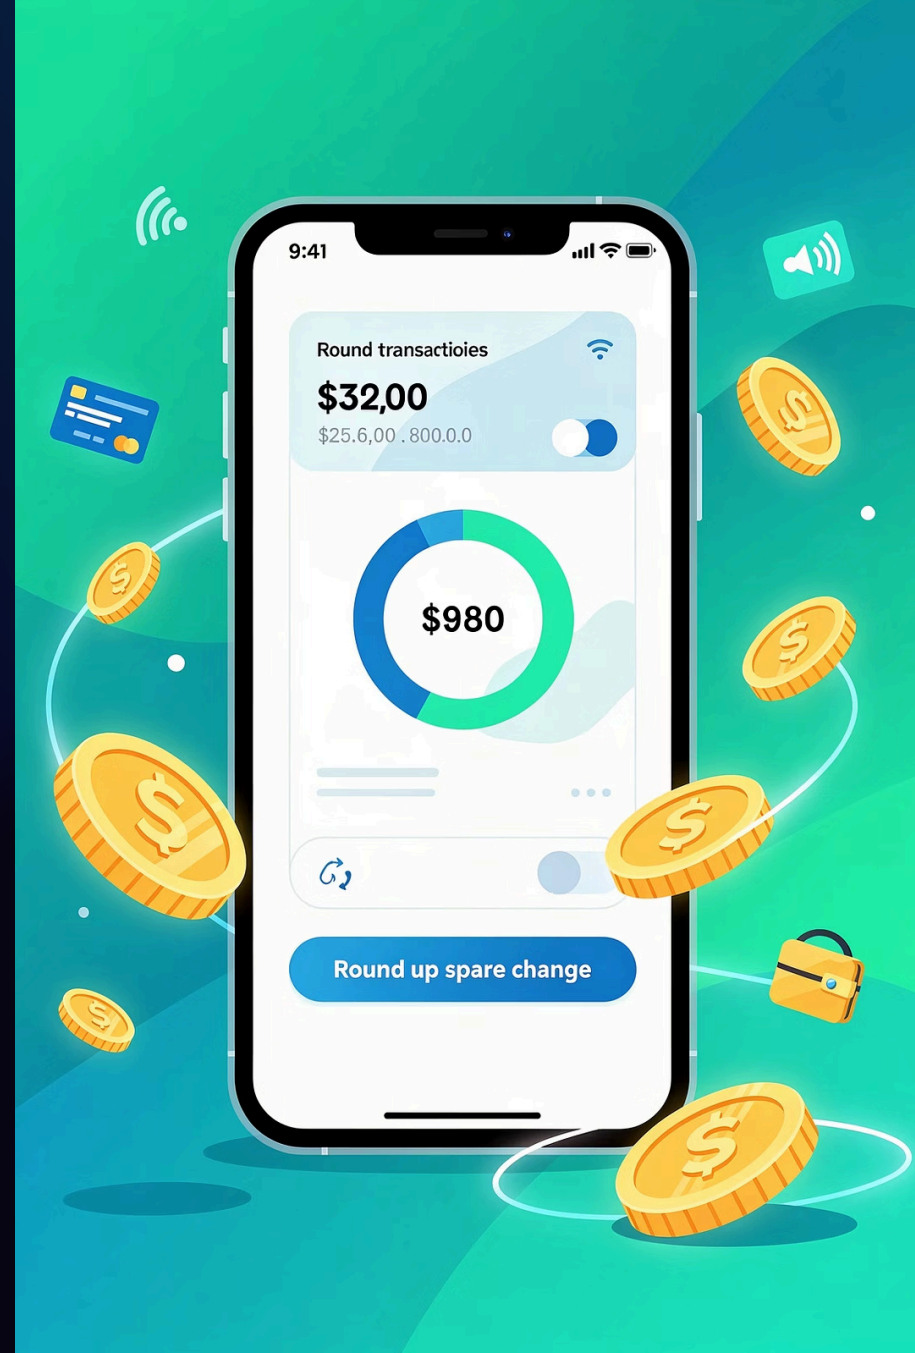

**Step 5: Build your
emergency fund first.**

Step 6: **Kill** subscriptions you forgot about.

Audit your bank statements. Unused subscriptions silently drain your savings every month.

Step 7: Use **round-up**
apps to save spare
change.

Step 8: **Never** touch your savings account.

Out of Sight

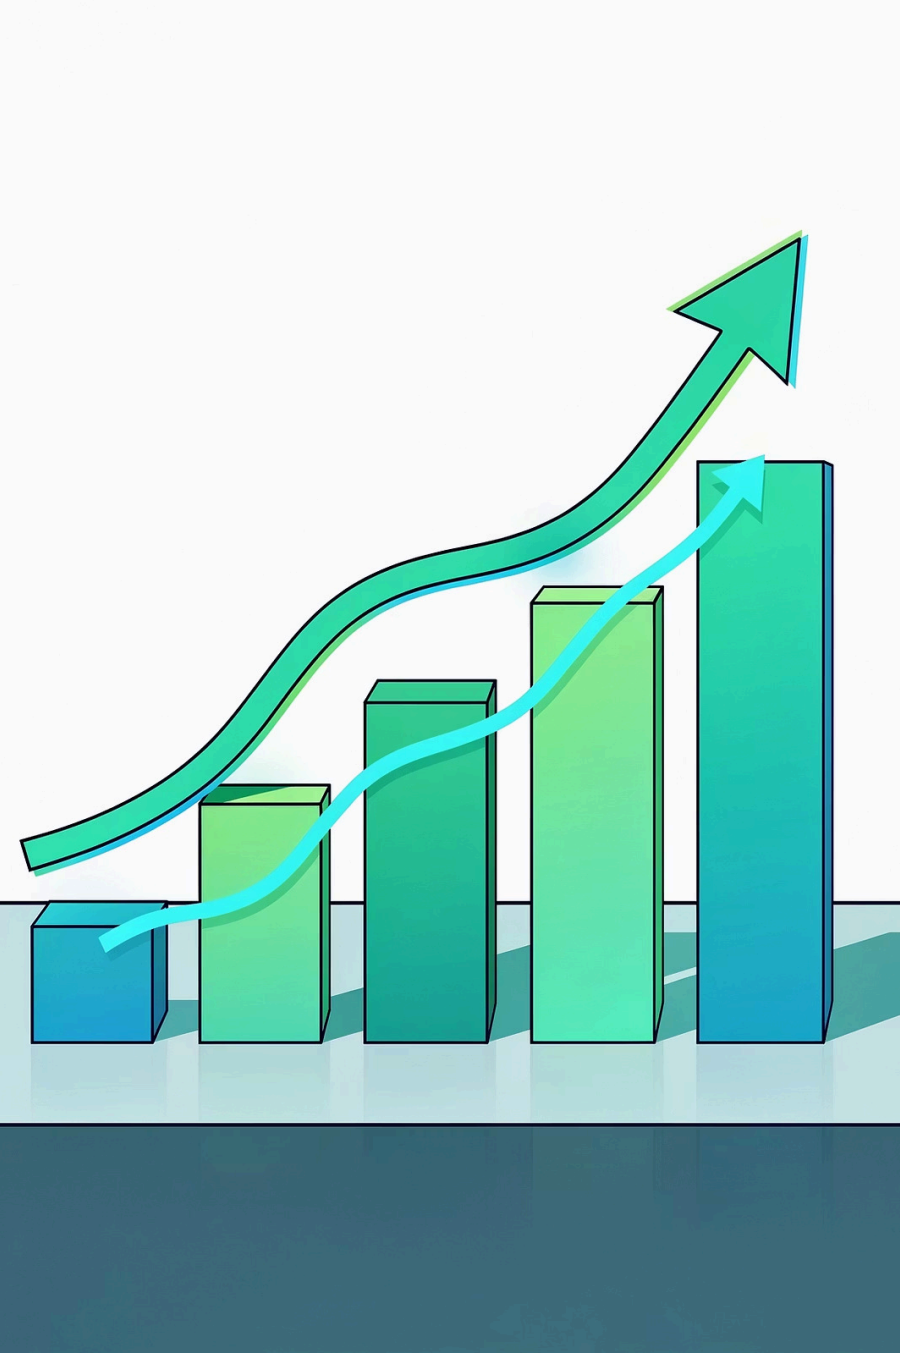

Keep savings in a separate bank

Out of Mind

No debit card on savings

Out of Reach

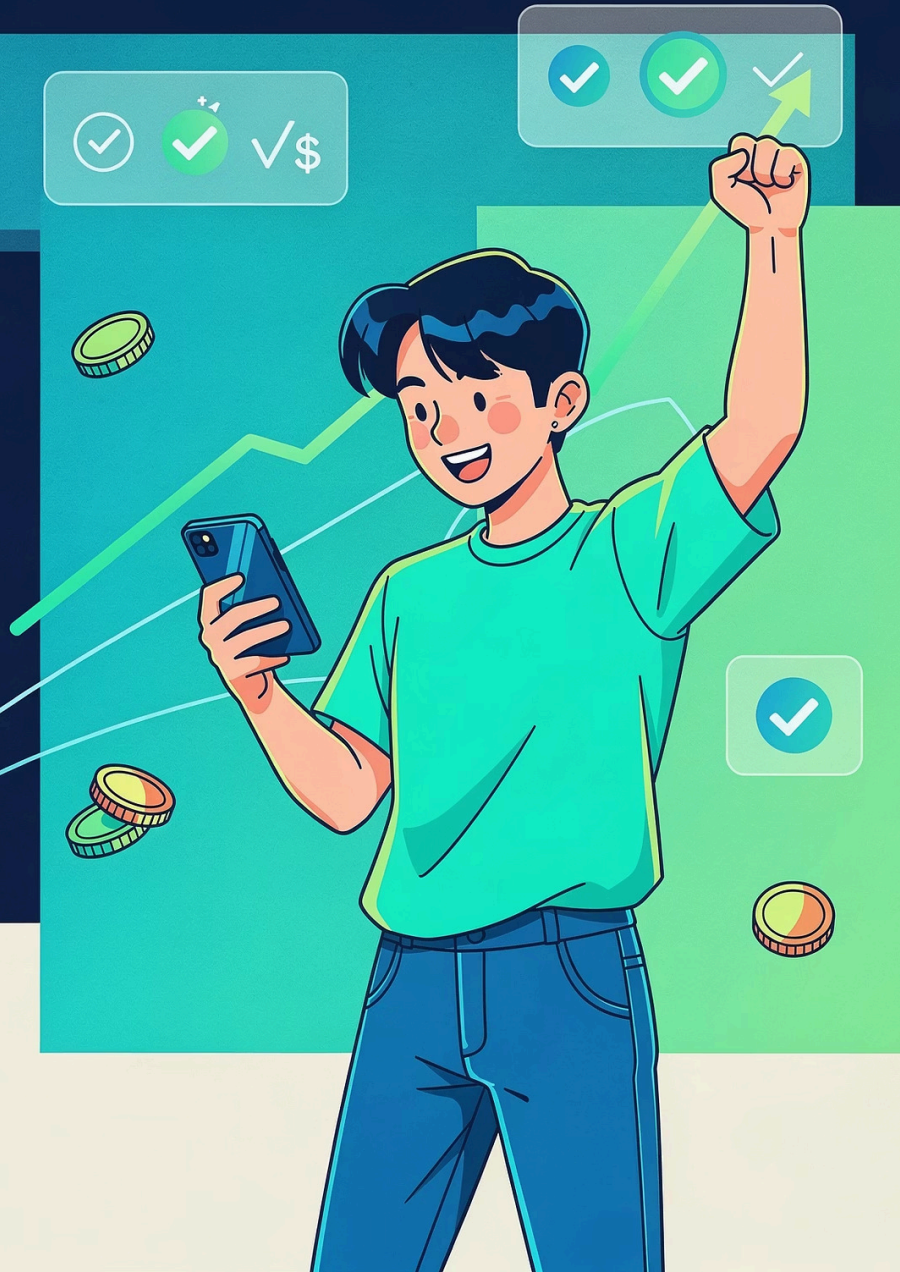

Add a small withdrawal delay

Step 9: Switch to a **high-yield** account.

Step 10: **Review** your savings every 90 days.

A short quarterly check-in keeps your system on track and lets you adjust as income changes.

Step 11: Celebrate every savings milestone.

🚩 FINAL CALL TO ACTION

Your future self will **thank you.**

The best time to automate your savings was yesterday. The second best time is right now. Start with one step today.
